

IMPACT

JULY 2020

MISSION INCLUSION TRUST has been able to participate in social inclusion through the generous contributions of our donors. Here are some of the activities the Trust has worked on:

Helping Born2Win Members Start a Small Business

Born2Win is a charitable trust that empowers transgenders by teaching them new skills and helping them set up new businesses. MIT helped in the set up of one such small business, a push cart stall that started selling food in North Madras.

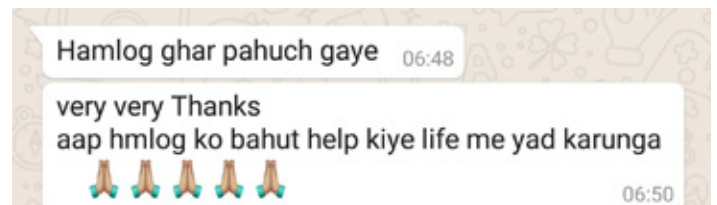

Sponsoring the Born2Win Annual Trans* Achievers Awards

Born2Win charitable trust conducts the annual Trans* Achiever Awards, where the contributions and achievements of transgenders in various areas are recognised and awarded. MIT donated to the trust for conducting the 7th edition of this event.

Ensuring the Support of Migrant Workers as They Returned Home

When the GOI announced that train and bus services would be temporarily suspended to control the spread of COVID-19, lakhs of migrant workers were stranded all over the country without food and income. MIT donated to SevaiKarangal, an NGO that was on the ground, helping people with food and shelter on their long journey home from various parts of Tamil Nadu.

WE THANK OUR DONORS AND LOOK FORWARD TO THEIR CONTINUED SUPPORT.
